

Il12rb2-Flox

Nomenclature	C57BL/6Smoc- <i>Il12rb2</i> ^{em1(flox)Smoc}
Cat. NO.	TBD
Strain State	Developing

Gene Summary

Gene Symbol Il12rb2	Synonyms	Ifnm, IL-12RB2, A930027I18Rik
	NCBI ID	16162
	MGI ID	1270861
	Ensembl ID	ENSMUSG00000018341
	Human Ortholog	IL12RB2

Model Description

These mice carry loxP sites flanking target exons of Il12rb2 gene. When crossed with a Cre recombinase-expressing strain, this strain is useful in eliminating tissue-specific conditional expression of Il12rb2 gene.

*Literature published using this strain should indicate: Il12rb2-Flox mice (Cat. NO. TBD) were purchased from Shanghai Model Organisms Center, Inc..

Validation Data
