

Fgfr1op-Flox

Nomenclature	C57BL/6Smoc- <i>Fgfr1op</i> ^{em1(flox)Smoc}
Cat. NO.	TBD
Strain State	Developing

Gene Summary

Gene Symbol Fgfr1op	Synonyms	FOP, 4930553O10Rik
	NCBI ID	75296
	MGI ID	1922546
	Ensembl ID	ENSMUSG00000069135
	Human Ortholog	FGFR1OP

Model Description

These mice carry loxP sites flanking target exons of *Fgfr1op* gene. When crossed with a Cre recombinase-expressing strain, this strain is useful in eliminating tissue-specific conditional expression of *Fgfr1op* gene.

*Literature published using this strain should indicate: *Fgfr1op*-Flox mice (Cat. NO. TBD) were purchased from Shanghai Model Organisms Center, Inc..

Validation Data

No data
