

Plin1-Flox

Nomenclature	C57BL/6Smoc- <i>Plin1</i> ^{em1(flox)Smoc}
Cat. NO.	TBD
Strain State	Developing

Gene Summary

Gene Symbol Plin1	Synonyms	Peri, Plin, 6030432J05Rik
	NCBI ID	103968
	MGI ID	1890505
	Ensembl ID	ENSMUSG000000030546
	Human Ortholog	PLIN1

Model Description

These mice carry loxP sites flanking target exons of Plin1 gene. When crossed with a Cre recombinase-expressing strain, this strain is useful in eliminating tissue-specific conditional expression of Plin1 gene.

*Literature published using this strain should indicate: Plin1-Flox mice (Cat. NO. TBD) were purchased from Shanghai Model Organisms Center, Inc..

Validation Data
