

A2ml1-Flox

Nomenclature	C57BL/6Smoc- <i>A2ml1</i> ^{em1(flox)Smoc}
Cat. NO.	TBD
Strain State	Developing

Gene Summary

Gene Symbol A2ml1	Synonyms	Ovos, Ovos2
	NCBI ID	232400
	MGI ID	3039594
	Ensembl ID	ENSMUSG000000047228
	Human Ortholog	A2ML1

Model Description

These mice carry loxP sites flanking target exons of A2ml1 gene. When crossed with a Cre recombinase-expressing strain, this strain is useful in eliminating tissue-specific conditional expression of A2ml1 gene.

*Literature published using this strain should indicate: A2ml1-Flox mice (Cat. NO. TBD) were purchased from Shanghai Model Organisms Center, Inc..

Validation Data

No data
