

Cacfd1-Flox

Nomenclature	C57BL/6Smoc- <i>Cacfd1</i> ^{em1(flox)Smoc}
Cat. NO.	TBD
Strain State	Developing

Gene Summary

Gene Symbol Cacfd1	Synonyms	mFwe, 5930434B04Rik
	NCBI ID	381356
	MGI ID	1924317
	Ensembl ID	ENSMUSG000000015488
	Human Ortholog	CACFD1

Model Description

These mice carry loxP sites flanking target exons of *Cacfd1* gene. When crossed with a Cre recombinase-expressing strain, this strain is useful in eliminating tissue-specific conditional expression of *Cacfd1* gene.

*Literature published using this strain should indicate: *Cacfd1*-Flox mice (Cat. NO. TBD) were purchased from Shanghai Model Organisms Center, Inc..

Validation Data

No data
