

Scx-Flox

Nomenclature	C57BL/6Smoc- <i>Scx</i> ^{em1(flox)Smoc}
Cat. NO.	TBD
Strain State	Developing

Gene Summary

Gene Symbol Scx	Synonyms	Scl, Bhlha41, BB114693
	NCBI ID	20289
	MGI ID	102934
	Ensembl ID	ENSMUSG00000034161
	Human Ortholog	SCX

Model Description

These mice carry loxP sites flanking target exons of Scx gene. When crossed with a Cre recombinase-expressing strain, this strain is useful in eliminating tissue-specific conditional expression of Scx gene.

*Literature published using this strain should indicate: Scx-Flox mice (Cat. NO. TBD) were purchased from Shanghai Model Organisms Center, Inc..

Validation Data
