

Gaa-Flox

Nomenclature	C57BL/6Smoc- <i>Gaa</i> ^{em1(flox)Smoc}
Cat. NO.	TBD
Strain State	Developing

Gene Summary

Gene Symbol Gaa	Synonyms	E430018M07Rik
	NCBI ID	14387
	MGI ID	95609
	Ensembl ID	ENSMUSG000000025579
	Human Ortholog	GAA

Model Description

These mice carry loxP sites flanking target exons of Gaa gene. When crossed with a Cre recombinase-expressing strain, this strain is useful in eliminating tissue-specific conditional expression of Gaa gene.

*Literature published using this strain should indicate: Gaa-Flox mice (Cat. NO. TBD) were purchased from Shanghai Model Organisms Center, Inc..

Validation Data
