

Ccr6-Flox

Nomenclature	C57BL/6Smoc- <i>Ccr6</i> ^{em1(flox)Smoc}
Cat. NO.	TBD
Strain State	Developing

Gene Summary

Gene Symbol Ccr6	Synonyms	CCR-6, KY411, Cmkbr6, CC-KR-6
	NCBI ID	12458
	MGI ID	1333797
	Ensembl ID	ENSMUSG00000040899
	Human Ortholog	CCR6

Model Description

These mice carry loxP sites flanking target exons of Ccr6 gene. When crossed with a Cre recombinase-expressing strain, this strain is useful in eliminating tissue-specific conditional expression of Ccr6 gene.

*Literature published using this strain should indicate: Ccr6-Flox mice (Cat. NO. TBD) were purchased from Shanghai Model Organisms Center, Inc..

Validation Data

No data
