

Scaf1-Flox

Nomenclature	C57BL/6Smoc- <i>Scaf1</i> ^{em1(flox)Smoc}
Cat. NO.	TBD
Strain State	Developing

Gene Summary

Gene Symbol Scaf1	Synonyms	SR-A1, AI480556
	NCBI ID	233208
	MGI ID	2141980
	Ensembl ID	ENSMUSG00000038406
	Human Ortholog	SCAF1

Model Description

These mice carry loxP sites flanking target exon 7-9 of Scaf1 gene. When crossed with a Cre recombinase-expressing strain, this strain is useful in eliminating tissue-specific conditional expression of Scaf1 gene.

*Literature published using this strain should indicate: Scaf1-Flox mice (Cat. NO. TBD) were purchased from Shanghai Model Organisms Center, Inc..

Validation Data

No data
