

# CHO-K1

## Strain Information

|              |                                                                                                                                                        |
|--------------|--------------------------------------------------------------------------------------------------------------------------------------------------------|
| Cat. NO.     | NM-X03A                                                                                                                                                |
| Cell Line    | CHO-K1                                                                                                                                                 |
| Strain State | Validation of tumorigenic capacity                                                                                                                     |
| Model        | Hamster ovary cells                                                                                                                                    |
| Description  | *Literature published using this strain should indicate: CHO-K1 cell line (Cat. NO. NM-X03A) was purchased from Shanghai Model Organisms Center, Inc.. |

---

## Validation Data

\*Wild-type cell lines are not for sale, and only applied to construction of tumor bearing mice and in-vivo efficacy studies.
