

Atg7-Flox

Nomenclature	C57BL/6Smoc- <i>Atg7</i> ^{em(flox)Smoc}
Cat. NO.	NM-CKO-220047
Strain State	Sperm cryopreservation

Gene Summary

Gene Symbol Atg7	Synonyms	Agp7; Apg7l; Atg7l; Gm21553; 1810013K23Rik
	NCBI ID	74244
	MGI ID	1921494
	Ensembl ID	ENSMUSG00000030314
	Human Ortholog	ATG7

Model Description

These mice carry loxP sites flanking exon 5-6 of Atg7 gene. When crossed with a Cre recombinase-expressing strain, this strain is useful in eliminating tissue-specific conditional expression of Atg7 gene.

*Literature published using this strain should indicate: Atg7-Flox mice (Cat. NO. NM-CKO-220047) were purchased from Shanghai Model Organisms Center, Inc..

Validation Data
