

Abcc8-Flox

Nomenclature	C57BL/6Smoc- <i>Abcc8</i> ^{em1(flox)Smoc}
Cat. NO.	TBD
Strain State	Developing

Gene Summary

Gene Symbol Abcc8	Synonyms	Sur, SUR1, D930031B21Rik
	NCBI ID	20927
	MGI ID	1352629
	Ensembl ID	ENSMUSG000000040136
	Human Ortholog	ABCC8

Model Description

These mice carry loxP sites flanking target exons of *Abcc8* gene. When crossed with a Cre recombinase-expressing strain, this strain is useful in eliminating tissue-specific conditional expression of *Abcc8* gene.

*Literature published using this strain should indicate: *Abcc8*-Flox mice (Cat. NO. TBD) were purchased from Shanghai Model Organisms Center, Inc..

Validation Data

No data
