

Acadm-Flox

Nomenclature	C57BL/6Smoc- <i>Acadm</i> ^{em1(flox)Smoc}
Cat. NO.	NM-CKO-205230
Strain State	Sperm cryopreservation

Gene Summary

Gene Symbol Acadm	Synonyms	MCAD, AU018656
	NCBI ID	11364
	MGI ID	87867
	Ensembl ID	ENSMUSG000000062908
	Human Ortholog	ACADM

Model Description

These mice carry loxP sites flanking exon 2 of *Acadm* gene. When crossed with a Cre recombinase-expressing strain, this strain is useful in eliminating tissue-specific conditional expression of *Acadm* gene.

*Literature published using this strain should indicate: *Acadm*-Flox mice (Cat. NO. NM-CKO-205230) were purchased from Shanghai Model Organisms Center, Inc..
